Surface Protection Tape

DESCRIPTION

A 48 mil thick rubberized backing coated with an advanced medium tack rubber based pressure sensitive adhesive on a controlled release White liner.

**AEROSPACE
APPLICATION**

Used on the vertical and horizontal surfaces of interior wood cabinetry to prevent damage resulting from scratches, chafing, abrasion, gouging, impact, etc. Also used on the edge of the cabin entranceway door frame to prevent paint scratches and chipping.

**SPECIAL
FEATURES**

Highly conformable and easily removable--even after extended application. **Ultimate cabinetry protection.**

Not intended for outdoor applications or exposure.

**TECHNICAL
DATA**
